Health Department announces new Morgan location

The Weber-Morgan Health Department recently relocated its Morgan office to the Northfront Business Resource Center, 318 E. 300 North, in Morgan, Utah.

Services for immunizations and food handler permits will continue without interruption. Appointments can be made by calling 801-399-7100. Residents who are participating in the Women, Infant and Children (WIC) program will be seen at the Weber-Morgan Health Department Annex, 455 23rd Street, in Ogden.

"We want to recognize the support we received from the Morgan School District for letting us use their facility for the past eight years," says Brian Bennion, executive director of the Weber-Morgan Health Department. "As they address space needs at the school, it's understandable that we would have to move."

The new location offers close proximity to other services and commerce in Morgan County.
