Recommendations to Address COVID-19 and Daycares

As part of the Weber-Morgan Health Department’s COVID-19 response, we want to share with you important actions you can take to help protect your employees and children in the daycare.

• Frequently sanitize all surfaces contacted by everyone. These include:
  - Sink faucets
  - Door handles
  - Food service areas & equipment
  - Table tops
  - Seating and waiting areas
  - Equipment handles
  - Play areas and toys

• Managers shall ensure on a daily basis, and at the beginning of each shift, that no employee who presents any symptom of illness consistent with COVID-19 is permitted to work.

• Ensure adequate disinfection levels for food contact and other hard surfaces; Chlorine (50-100 ppm), Quaternary Ammonia (200-400 ppm) Refer to https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2 for other disinfection concentrations and contact times.

• Ensure all dishwashing equipment is working properly and adequately stocked with sanitizer or meeting the high temperature requirements.
  - Chlorine (50-100 ppm)
  - Quaternary Ammonia (200-400 ppm)

• Children that present any symptoms of illness consistent with COVID-19 should be excluded from daycare.

• Thoroughly wash and scrub hands with warm water and soap for at least 20 seconds on a frequent basis.

• Avoid touching your eyes, nose, or mouth.

• Prevent kids from sharing food and personal items.

• Provide hand sanitizer at appropriate dispensing locations.
